

Sycamore's  
Easter Egg Hunt

On the last Friday of the Spring Term Sycamore class went on an Easter Egg Hunt.

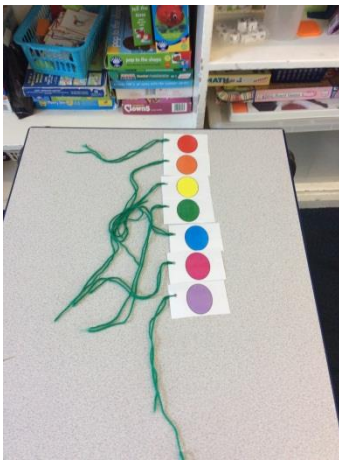

We were using our Geography and Reading skills to follow a plan and read clues to find cards.

Most importantly of all we were following our 'Rainbow Rules' to work together as a team. We had to listen to one another, to share ideas and take it in turns.

When we came back into the classroom we had to use what we had learned in Science Day to order our clues into the colours of the rainbow to get our prize.

**We had a fabulous time working together as a team!**
